MY FAVOURITE SEASON! BY DANIELLE PELLING

My favourite season
Is Spring.

Because of all the
wonderful things.
I love watching the flowers
growing.

Instead of being ruined
by the raining and snowing.
I used to love the summer
the best, because of the
sun and the heat.

But, it's not much fun
when you get sunburnt
and look like cooked meat!

So, please stay safe
and remember your hat, sun block and glasses.

I appreciate the sun when its out,
but don't like it passing.

I can't stress enough for you to be safe,
rather than sorry.

Just remember **STAY SAFE!**
And don't forget a nice **ICE LOLLY!!**
